

# Title of the manuscript

N. Author<sup>1</sup>, N. Author<sup>2,\*</sup> and N. Author<sup>1</sup>

<sup>1</sup> *Common affiliation of (first and third in this example) authors (if and as applicable); first.author@email, third.author@email*

<sup>2</sup> *Distinct affiliation of second author (if and as applicable); second.author@email*

*\*Corresponding author*

---

**Abstract.** Include an abstract of 250–500 words. The abstract should contain the purpose, methodology, results and conclusions of the presented research. Formulas should not be included in the abstract, but references are allowed if required. References should be included as Lopuhaä & Rousseeuw (1991) or as (Maronna et al. , 2006).

**Keywords.** *Keyword1; Keyword2. Include up to five keywords separated by semi-colons starting with capital letters.*

---
