

ANNOUNCEMENT

POPULATION STUDIES UNIT

INDIAN STATISTICAL INSTITUTE

Organizes a Workshop on

ADVANCED TOOLS AND TECHNIQUES FOR ANALYSIS OF DEMOGRAPHIC AND HEALTH STATISTICS AND APPLICATION OF COMPUTER SOFTWARE

DATE: 18TH TO 20TH MARCH, 2019

**VENUE: SEMINAR ROOM, POPULATION STUDIES UNIT, FIFTH FLOOR,
R.A. FISHER BHAVAN**

General Objective:

Improve technical/professional abilities in demographic and public health studies among college and university teachers and also among researchers/practitioners in various institutions/organizations.

Specific Objectives:

- (1) Update knowledge of participants about advanced tools and techniques of analysis of demographic and health statistics.
- (2) Acquaint participants with the common statistical software used in the analysis of demographic and health data.
- (3) Developing a network with various institutions/organizations who are contributing directly or indirectly to public health, population control and other development programs.

Course Coverage:

The resource persons will share their experience on using various advanced tools and techniques in analysis of demographic and health statistics. Emphasis will be given on use of the common computer software in analysis of demographic and public health data.

Participants:

Researchers from colleges, universities and other organizations will benefit by improving their analytical skill. The institute will benefit through developing a network with different institutions/organizations.

Registration Fee:

Rs. 1000/= (Rupees one thousand only) will be collected in cash from each selected candidate at the time of registration.

How to Register:

The application for participation in the workshop should be sent on or before March 10, 2019 by e-mail to the following email address along with a brief CV, indicating name, current address, age, sex, details of academic qualifications (Minimum M.Sc./M.A.), current profession and designation. Experience of candidate in using common software and knowledge of statistical packages will be an added advantage. Number of seats for the workshop is limited to 25. Applications from the first 25 eligible applicants will be accepted and they will be informed through email. Each selected applicant needs to bring a laptop with him/her during the workshop.
