*Professor Robert Fourer*  
President, AMPL Optimization  
Inc.

Professor Emeritus,  
Northwestern University, USA

Prof. Rangalal Bandopadhyay

Prof. Asok Mittal

A one-day symposium on **Recent Trends in Operations Research and Data Science** will be held on 19 December, 2017, in our Institute, as a part of the celebration of 125<sup>th</sup> Birth Anniversary of Professor P. C. Mahalanobis. This symposium intends to reach out to the community of researchers and scholars working in the broad area of Operations Research and Data Science and also to the community in industries and other organizations involved in the applied aspect of this area. To this end, this symposium features a set of lectures on emerging problem-areas, in addition to emphasizing more on problem-description and their importance with a brief discussion on the corresponding solution.

The maximum number of research scholars to be admitted is 30. The research scholars are requested to register in the enclosed form along with a copy of their CV and a recommendation letter from their thesis advisor. The last date for submission of registration form and other documents is **01 December 2017**. The decision regarding acceptance of their request for participation in the symposium will be communicated by **5 December 2017**. Other interested persons are requested to register by **8 December 2017**. Note that a limited number of papers will be accepted for presentation.

There is no registration fee. However, participants may have to pay for accommodation depending on the availability of funds.
