

British Medical Journals

BMJ's world-leading medical journals can be accessed through the **ONOS (One Nation One Subscription)** program. This access includes a wide range of **peer-reviewed, high-impact journals** that support research, clinical practice, and medical education across specialties.

How to Access:

Visit: <https://www.onos.gov.in/how-to-access>

Users can browse or search across BMJ's full journal portfolio. Access is IP-enabled and does not require login from within campus networks.

BMJ's Top Few Journals Include:

- **The BMJ (British Medical Journal)** – One of the world's most respected general medical journals.
- **Heart** – Leading cardiology journal with global clinical impact.
- **Thorax** – Premier journal for respiratory medicine.
- **Gut** – Top-tier journal in gastroenterology and hepatology.
- **Archives of Disease in Childhood** – Covers the latest research in pediatrics.
