

Application Procedure

Applicants are advised to study the prospectus carefully and satisfy themselves that they are eligible for admission to the academic programme for which they are applying. If at any stage it is found that a candidate does not satisfy the eligibility conditions or the information furnished in the application is incorrect, the application will be cancelled. Those who have completed or are due to complete the qualifying examinations for which results are not yet published, may also apply for admission; if selected, their admission to an academic programme will be provisional pending the announcement of results. In such cases, however, their applications may be cancelled if the final examinations are not completed before July 31, 2023. The institute may decide to relax this date at its discretion. If a student is asked to discontinue from an ISI programme for having failed or on any disciplinary ground, he/she is not eligible for readmission to the same programme.

If a programme is offered at multiple locations, the applicant for that programme is asked to choose locations in order of preference. If selected, he/she will be allocated a location according to these preferences depending on availability as per merit list.

Indian nationals residing overseas and foreign nationals, like all other applicants, must take the Admission Test at one of the test cities in India (see Table 2, in page no. 3). Applicants of foreign nationality will be regarded as applicants of the general (unreserved) category.

All the applications for admission to the programmes being offered by Indian Statistical Institute in the academic year 2023-24 must be done ONLINE through the ISI Admission Portal the link to which is available at <https://www.isical.ac.in/~admission>.

The applicant must initially register at the ISI Application Portal. An account will be created for the applicant in the portal, through which s/he can conveniently fill up the application form and also make payment of the application fee after submission of the form. After completion of application, the applicant will be able to pay the application fee through the payment gateway. Payment can be made in the online mode (See application portal for details).
