

POLICY ON OVERSEAS APPLICANTS FOR ADMISSION 2023-2024

Anyone satisfying the requisite eligibility criteria can apply for admission to any academic programme being offered by ISI in the current year, irrespective of nationality or residence status.

Overseas applicants, like all other applicants, must take the admission test at one of the test centres located in India (see Section 9 of Prospectus 2023-24). Applicants of foreign nationality will be regarded as applicants of the general (unreserved) category.

The number of seats to be allocated to foreign nationals in a given non-JRF programme is super-numerary, subject to a maximum of 10% of the total number of seats for the programme.
