

Syllabus for MS in Library and Information Science (LIS) 2017

Programme Code: MLIB

Paper I (Forenoon): Test Code: PLA

There will be 30 objective type questions. These are given to test quantitative skill (at 10 +2 level) and reasoning skills (at the undergraduate level), knowledge of mathematics, ability to read and understand graphs & statistical tables (preferably 10+2 level).

PLA test consists of two parts: *Part I: Test of Quantitative Ability* and *Part II: Test of Reasoning Ability*. The candidates are expected to answer all 30 questions.

Paper II (Afternoon): Test Code: PLB

There will be 30 objective type questions. This paper will mostly test language proficiency and aptitude. The broad pattern of the question paper will be as below:

Part A

- a) **Comprehension Ability Test.** The candidate is expected to go through the text and understand its content, to answer the objective type questions.
- b) **Test of English Language Proficiency.** Questions are given to test the knowledge of antonyms, analogy, synonyms and elementary English grammar.

Part B

- c) **Test of knowledge of Books, Libraries, Information and Computers.** Basic general knowledge of books, libraries, Information Technology etc.
