

Winter Research Project Program at Home of Mathematical Genomics

Indian Statistical Institute, Calcutta

Applied Statistics Unit

02/11/2011

Those who are in final year or pre-final year student of B. tech / M. Tech / B.Sc /M. Sc in Computer Science/ Information Technology/Mathematics are invited to request for Winter Research Project Program at HMG, ASU, ISI, Calcutta. We will take at most 10 students for this program.

The students should have good knowledge of programming in Matlab and C, C++. But we desire student having Matlab programming skill.

Area of Research Works: Fractal, Mathematical Morphology, Mathematical Genomics, Cellular Automata, Integral Value Transformations.

We cannot provide accommodation and any remuneration. You have to arrange it. After successful completion of the program you will get certificate of project work. The project work you may submit as your final year project.
