WORKSHOP ON
BUSINESS STATISTICS
For Participants from North-east India
DECEMBER 5-9, 2016

Organized by
INTERDISCIPLINARY STATISTICAL RESEARCH UNIT (ISRU)
INDIAN STATISTICAL INSTITUTE
203 BARRACKPORE TRUNK ROAD
KOLKATA 700108

OBJECTIVE
This workshop will focus on the analysis of business data and the formulation of business-related issues into mathematical or stochastic models. As a result of inadequate knowledge in this genre, it has been seen that researchers are facing various difficulties in handling such data. There is a need to equip researchers in this area with basic statistical techniques as well as some of the basic multivariate tools of data analysis like Cluster Analysis, Factor Analysis, Time Series Analysis and Discriminant Analysis. In essence, this five-day workshop aims to deal with statistical data analysis and multivariate tools together with their interpretation, using statistical software like R to help researchers in this area handle their own data.

SUPPORT TO PARTICIPANTS

ACCOMMODATION AND FOOD
Outstation participants will be accommodated in hostels on the Tezpur University campus, and all meals will be provided. Working lunch and snacks will be provided to all participants free of cost on all five days of the workshop.

TRAVELLING ALLOWANCE
Outstation participants will be reimbursed for round-trip fare by train (AC 3-tier)/bus by the shortest route and transport from the Tezpur town to ISI NE Centre campus, subject to submission of ticket or money receipt.

NO PAYMENT SHALL BE MADE WITHOUT PROPER SUPPORTING DOCUMENTS.

VENUE
Indian Statistical Institute
North-East Centre
Tezpur University Campus
Napaam, Assam 784028

Who can apply
Teachers, Researchers (and registered Research Scholars) including but not limited to those in Departments of Business Administration, Commerce and Economics from Colleges, Universities and other academic institutions in North-Eastern India can apply. Apart from those mentioned above, personnel working in government organizations in North Eastern India who deal with statistical data analysis in their day-to-day activities and wish to participate in this workshop can also apply. Preference will be given to applicants who need to use Statistics for their research analysis.

Certificate of Attendance will be provided only to participants who attend all the sessions.
