Ph.D. Thesis Defense Seminar

Date: October 01, 2026

Time: 4:00 PM

VENUE:

L-Infinity, 5th Floor, A.N. Kolmogorov Bhavan, ISI Kolkata

SPEAKER:

Mayukh Dasaratharaman

Stat-Math Unit, ISI Kolkata

TITLE:

Subconvex Bounds on $GL(3)$ and $GL(2) \times GL(2)$ L-functions

ABSTRACT:

We prove subconvex bounds for symmetric lifts of $GL(2)$ forms and $GL(2) \times GL(2)$ forms in the level aspect. We use the delta method, pioneered by Munshi and applied to great effect in the subconvexity problem.

ALL ARE CORDIALLY INVITED
